PRODUCT CODE:

EW2832 (goggle only), EW2800 (face shield only), EW2932 (goggle + face shield)

Product:

A robust clear-lens safety goggle with an indirect vent system designed to minimise heat and moisture buildup. With anti-fog and anti-scratch performance, a comfortable sealed fit and high-impact resistance, the Betafit K2 delivers dependable eye protection in demanding industrial environments. With optional anti-scratch face shield.

Key Features:

- Clear Anti-Scratch and Anti-Fog Lens
- Indirect Venting Reduces Heat and Moisture Buildup
- Comfortable Sealed Goggle Design
- Adjustable Secure Strap

Safety Standards:

EN166 is a European standard that specifies the requirements for personal eye protection. It applies to all types of individual eye protectors used for general safety purposes, including helmet-mounted visors.

The standard ensures protection against:

- Mechanical risks (impact, splashes, dust)
- Optical radiation
- Thermal and chemical risks

Goggle + Visor Assembly

Property	Rating
Optical Class	1
Impact Resistance	B
Splash Protection	3
Dust Protection	4
Fine Dust/Gas Protection	5

Care Instructions:

To maintain the safety and clarity of your visor:

- Use a soft cloth and mild soap or lens cleaner.
- Avoid abrasive materials or solvents (e.g., acetone) that can damage coatings.
