

TECHNICAL DATA SHEET

RP2110

FFP1 WELDED SEAM FOLD FLAT RESPIRATOR

The 2110 is the entry level FFP1 which benefits from all the features of the 2100 series and is suitable for non hazardous environments.

KEY FEATURES

- Betafit RP2110 NR - Highest quality materials and engineering techniques are used to protect the wearer from very fine toxic dust, mist & fume hazards
- Assigned Protection Factor (APF) = 4 x Workplace Exposure Limit (WEL)
- Continuous loop headstrap with toggle adjustment
- Soft inner nose seal that extends across the wearers face for improved fit
- Low profile design which enables the wearer to wear under face / welding shields
- Individually wrapped making it ideal for PPE dispensers
- Approved to EN149:2001 + A1:2009

APPLICATIONS

- Sweeping
- General dusty duties
- Non toxic dusts
